

Mary Dolan worked for South Shore Health for the past 4.5 years which is in Weymouth, Massachusetts a town outside of Boston as the Executive Director of the Enterprise Project Management Office. In her tenure, she oversaw both the Epic and Workday implementation, among other Health System initiatives. Mary has spent over 10 years in the healthcare information technology space working for vendors, consulting firms, and providers. She has a master's degree in medical informatics from Northwestern University and is a passionate advocate of the healthcare IT industry's impact to patient care delivery. She just recently relocated to her hometown of Naples, Florida and will be joining NCH Healthcare System as their Director of IT Governance.
